### **SCHOOL WARRANT**

To the inhabitants of the school district in the Town of Marlow qualified to vote in district affairs:

You are hereby notified to meet at Jones Hall, in said district on the 8th of March, 1949, at 2 o'clock in the afternoon to act upon the following subjects:

1. To choose a moderator for the coming year.
2. To choose a clerk for the ensuing year.
3. To choose a member of the school board for the ensuing three years.
4. To choose a treasurer for the ensuing year.
5. To determine and appoint the salaries of the school board and truant officer, and fix the compensation of any other officer or agent of the district.

6. To hear the reports of agents, auditors, committees, or other officers chosen, and pass any vote relating thereto.

7. To choose agents, auditors, committees, or other officers in relation to any subject embraced in this warrant.

8. To see if the district will vote to make any alterations in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of statutory obligations of the district, as determined by the school board in its annual report.

9. To see what sum of the money the district wishes to raise and appropriate to add to the amount previously set aside to provide water for the school.

10. To see if the District will authorize the School Board to work with other school boards in this area to study the Cooperative School Act and its possibilities for increased educational efficiency.

11. To transact any other business that may legally come before this meeting.

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

I herewith submit my fourth annual report as superintendent of your school.

We had one change in our faculty this year. Mrs. Brown resigned to accept a position in Marlboro, which would be more convenient to her home. Her place has been filled by Mr. Abbott, a resident of North Charlestown, and a teacher of many years of successful teaching experience. He is a graduate of Boston University and has taken work at several teachers colleges and other schools.

Our enrollment has declined somewhat this year due to the moving away of several families. This has helped overcome the crowded condition in the school. Last fall it was found convenient to again split the fourth grade and put some of the pupils in the grammar room. This arrangement allows all the children to have more of the teachers' time as there isn't the great difference in enrollments between the two rooms.

We have been able to replace some of the older texts with more up-to-date material. It is hoped that eventually all the books will be of recent date. This has to be accomplished a little at a time to avoid an excessive cost for any one year. There is need for a change in the social studies books, and in the English books. Both teachers attended a workshop in the social studies, conducted under the auspices of the State Board of Education during the first week of January, and helped to prepare a new course of studies for this field. The last revision in this subject was made in the early "thirties."

It is impossible to estimate what the amount of state aid to the schools will be at this time. A new Educational Program has been presented to the legislature. There has been considerable sentiment expressed in some quarters that the portion of school money paid by the state would

have to be reduced. This would mean that towns like Marlow would have to raise a greater proportion of the money themselves. The budget this year is twelve and one-half per cent higher than the one appropriated last year. This compares favorably with other communities. The average amount of increase will probably be nearly twenty per cent for most towns. The three factors which influence most of the increase are salaries, transportation and tuition. The amount to be raised by taxation will be greater than twelve per cent due to the fact that last year we could see a possible balance of one thousand dollars. This year it is entirely possible that the sum raised last March will not be quite enough to cover our needs. However, we have decided to go through the year and see if we can make the present appropriation cover the school costs.

You will notice from the balance sheet of the school board's report that there was a deficit last June. This was caused by a misunderstanding between the selectmen and the former school board over the correct amount of an appropriation made several years ago. The amount certified to the State Tax Commission was greater than the amount voted at the annual meeting for that year. Consequently, the school board used the larger figure in their calculations. An audit by the State Tax Commission showed the lesser figure to be correct, and so the school board's estimate for last June 30th was a few hundred dollars short of the actual amount. This means that they were not able to put as large an amount in the "Water Fund" as they had hoped.

The school board has studied several possibilities for obtaining water for the school during the past year. The committee is now getting estimates on the cost of piping the water from the present well on town property to the school house. Permission has been granted to cross private property to carry out this project. The plan seems to be the best of several studied. It is hoped to be able to start work on this job early in the spring, providing a sufficient sum of money is available. At the present time it is costing the district a considerable sum to have the water brought

to the school. This amount, alone, would pay for an installation over a very short period of time.

### HEALTH

Health inspection showed the following defects:

56 pupils were inspected.

2 pupils were underweight

4 pupils showed poor posture.

43 pupils were in need of dental care.

4 pupils were advised to have a nose and throat examination by a physician.

54 pupils were given vision tests by the new Massachusetts Vision Testing equipment purchased by the Union last year; three were found to have defective vision.

40 pupils were given hearing tests with the new Maico Audiometer also purchased by the Union last year one had a hearing defect.

4 pupils had their teeth cared for.

1 pupil had a special eye examination, and defect corrected.

### STATISTICAL REPORT FOR 1947-48

Total registration	51
Average membership	48.457
Percentage of attendance	93.47
Cases of tardiness	49
Visits by superintendent	36
Number of pupils not absent or tardy	3
Visits by citizens and others	25
Half-days schools were in session	350

The new blackboards are working out very well and have overcome the complaints that were prevalent previously that the children couldn't see the boards.

We want to thank the parents for the games that have been contributed for the use of the children. There is a demand for material of this type, especially on days when the condition of the weather is such that the children shouldn't be out-of-doors.

I wish to thank the members of school board, teachers, parents and friends for their continued cooperation and support.

Respectfully submitted,  
THERON B. THOMPSON,  
Superintendent of Schools.

## REPORT OF THE FOREST FIRE WARDEN

Your local organization to prevent and extinguish brush and woods fires is glad to report a good year of forest protection in 1948. In spite of danger conditions nearly equalling at times those of 1947 when great losses were suffered in New Hampshire and New England, fire damage and loss this year have been gratifyingly low.

With the continuing cooperation of all the people, we can hope to have another successful year in 1949. Let us remember that in any year, over 90% of all fires are caused by carelessness and that all of these man-caused fires are preventable.

Today, we have more slash and uncut grassland than for many years in the past. Smokers, campers and tourists who use our outdoors are also more numerous than ever before. We must therefore be ready for fires which might occur but, above all, prevention by everyone is the greatest need.

A few simple precautions taken by every citizen will help, as follows:

- (1) Always get a written permit from the warden before kindling a fire outdoors when the ground is not covered with snow.
- (2) If you smoke, always extinguish matches and tobacco before dropping or throwing them down. In automobiles, always use the ash trays.
- (3) Report fires and smokes to the warden without delay.

The observance of these and other simple rules will go far to insure safety from fire damage and your cooperation in this way is earnestly solicited.

F. J. BAKER,  
District Fire Chief.

### 1948 FIRE RECORD

Number of Fires, 4.

Acreage Burned,  $\frac{1}{2}$ .

Number of Fire Permits Issued, 32.

Respectfully submitted,

CHARLES B. ANDREWS,  
Forest Fire Warden.
